

QuantiFarm DemoEvent 15.1.2026, Hotel Red & Green, Närpes PROGRAM

9:30-10 Registration, thereafter coffee and snacks

- Please register by signing the registration form AND stating how many years you have been growing, if applicable.
- In addition to the programme, the envelope contains: • a name tag (if you have not registered in advance, you will receive a blank tag; please write your name yourself) • a lunch ticket and • a list of web links and QR codes (on the back of the programme).

10-11:30 Better sustainability for year-round tomato production with digital tools (seminar, Frans Henriksson hall)

10-10:05 Welcome and shortly about QuantiFarm-project (Irene Vänninen, Luke)

10:05-11:15: **Better sustainability for year-round tomato production with digital tools:**

Results from two tomato farms in Närpes on how selected digital tools contributed over a three-year period to the input quantities of key resources and their costs per kilogram of tomatoes produced. Comparison between a farm that used new digital tools and one that did not. Presenters: Irene Vänninen (Luke) and Esa Palmujoki (SCADS), with contributions by farmers who provided their data for use in the project.

11:15-11:30 **Digital tools and fair use of data:** what are growers' rights and how laws protect them (Liisa Pesonen, Luke)

11:30-11:40 **Break**

11:40-15 Mini fair with two parts:

11:40-12:40 **Short pitch-talks by exhibitors of digital tools or services** (Frans Henrikssons sal). About 5 minutes per presenter.

12:40-15:00 **Mini fair on digital tools and services for greenhouse growing** (reception hall of Red&Green)

15:00 End of event.

The events main languages are Swedish and English. For seminar presentation in English, see the link/QR-code list on the back of this page.
